

MATERIAL SAFETY DATA SHEET

SILICONE SOFTENER

1. Chemicals and identification

Product Name: SILICONE SOFTENER

Chemical Category: Special polymer.

Molecular formula: Not available (copolymer)

CAS No.: None (copolymer)

CAS Name: None (copolymer)

Synonyms: None

中文名称: 广东宏昊化工有限公司

English name: Honghao Chemical Co., Ltd.

Add: One of the A0602, Jianggu Fine Chemical Base, Jianggu, Sihui, Guangdong, China.

TEL: 0758-3267663

FAX: 0758-3108293

E-mail: hongtuzhuji@163.com

Website: www.htfine-chem.com

2. Hazards identification

Emergency summary: No data

Risk level: No data

Risk Inhalation: No data

Skin corrosion / irritation level: No data

Hazardous substances in water environment (slow toxicity): No data

Hazard pictograph

Dangerous information:

1. Very slight irritation to the skin.
2. Harmful to ingestion.

Precautionary measures:

1. Keep well ventilated when operating.
2. Wear appropriate protective equipment.
3. Washing thoroughly after operation, and don't eat at operation site.
4. Prohibit waste into the environment.

Burning hazard: No data

Health hazard: No data

Acute effect: No data

Environmental hazards: No data

3. Main Component

Component	CAS NO.	W/W %
Polymethylhydrosiloxane	9004-73-3	70%
water	7732-18-5	30%

4. First Aid Measures

Skin contact: Remove contaminated clothing, rinse skin thoroughly with water, and seek medical advice if necessary.

Eye contact: Lift eyelids and rinse with plenty of water, and seek medical advice if necessary.

Inhalation: Please move the patient to fresh air place if inhaled. Seek medical advice if necessary.

Ingestion: Gargle, prohibit vomiting. Seek medical advice immediately.

Suggestion to rescuers: Move the patient to a safe place. Consult a doctor.

Special hints to doctor: No data.

5. Fire Protection Measures

Hazard identification: No data.

Fire Extinguishing Agent: No data.

Special Extinguishing Process: Non flammable.

Emergency treatment: Non flammable.

6. Accidental Release Measures

Personal Protection: Wear appropriate personal protective equipment into process.

Prevent unrelated and unprotected person from entering.

Forbid to contact or walk over the spillover.

Environmental Protection: Avoid the spillover diffuse and flow, avoid spillover into soil, river, sewer and sewage pipes.

If the product has caused environmental pollution (sewers, waterways, soil or air), please inform the proper authorities.

Suppression and Cleaning: Prevent leakage if no danger, move the container away from the leakage area. If soluble in water, dilute and erase with water.

Correspondingly, if it's insoluble in water, it is absorbed by an inert dry material and placed in a suitable waste disposal container.

7. Handling and Storage

Operation: Keep the workplace well ventilated, prohibit the use of tool that are easy to produce sparks. Keep away from heat source of the fire, and strictly prohibit smoking in the workplace. During operation, the staff should wear self-priming filter respirator and wear protective gloves.

Storage: In cool, dry, well-ventilated place, prevent direct sunlight. Keep the container sealed with emergency treatment equipment and appropriate collection materials.

8. Touch Controls, Personal Protection

Detection method: Chromatography of gases/Chromatography-mass spectrometry/
Liquid chromatography

Engineering control: Keep the workplace well ventilated and provide safe shower and eye washing equipment.

Personal Protective Equipment

Respiratory Protection: Respiratory protective equipment should be worn if the occupational exposure limit is exceeded.

Eye protection: Wear chemical goggle.

Hand protection: Wear anti seepage rubber gloves

Clothing protection: Clothing need to meet industrial hygiene standards.

Other protection: No smoking, eating and drinking. Take a bath and put on clean clothes after work, pay attention to personal hygiene.

9. Physical and Chemical Properties

Appearance: slightly yellow viscous liquid

Ionicity: Nonionic

Melting point: No data.

Density(°C): No data.

Flash Point: 90°C.

Lower explosive limit: No data.

Upper explosive limit: No data.

Solubility: Easily soluble in water.

pH: 5-7

Boiling point(°C): No data.

Steam pressure: No data.

Flame point: No data.

10. Stability and Reactivity

Stability: Stable product, storage and use under normal environment temperature.

Hazardous reaction: No data.

Avoid Exposure Material: Electrostatic discharge, heat, moisture, etc.

Forbidden compound: Strong acid and alkali.

Hazardous Decomposition Products: No data.

11. Toxicological Information

Acute toxicity: Oral: No data.

Inhalation: No data.

Skin: No data.

Skin irritation or corrosion: No data.

Eye irritation or corrosion: No data.

Respiratory or skin allergy: No data.

Germ cell mutagenicity: No data.

Carcinogenicity: No data

Reproductive toxicity: No data.

Specific target organ systemic toxicity-one contact: No data.

Specific target organ systemic toxicity-repeated contact: No data.

Inhalation hazard: No data.

12. Ecological Information

Ecotoxicity

Acute toxicity test of fish: No data.

Acute activity inhibition test of daphnia magna: No data

Growth inhibition test of Algae: No data

Toxicity to microbes: No data

Persistence and degradability: No data

Biological magnification or bioaccumulation: No data

Migration in soil: No data.

13. Disposal Considerations

Proterty of waste: Hazardous waste

Products: recycle as much as possible.

If it can not be recycled, it will be disposed by incineration.

It is forbidden to dispose of this product by way of discharging to sewer.

Unclean packaging: Return empty containers to the manufacturer or deal with them according to local regulations.

Waste attention: Facilities and places for disposal must comply with the national standards for occupational safety, health and environmental protection.

14. Transport Information

Number of dangerous goods: No data.

United Nations number: No data.

UN dangerous goods grade: No data.

Packaging category: No data.

Packaging mark: No data.

Flammable liquid marine pollutants: No data.

IMO/IMDG (Ocean Transportation): Not Regulated

Packaging method: Opened polyethylene drum.

Transport attention: Prevent sunlight exposure, the transportation follows the specified line. Transportation vehicles should be equipped with corresponding varieties and quantities of fire fighting equipment and leakage emergency handling equipment.

15. Regulatory Information

Regulatory information: The following laws, regulations and standards stipulate the use, storage, transportation, loading and unloading, classification and marking of chemicals.

Law on Production Safety of the People's Republic of China

Regulations on dangerous chemicals and safety management

Regulations on the license for safety production.

Law on prevention and control of occupational diseases of People's Republic of China

Environmental protection law of the People's Republic of China

16. Additional Information

Revision note:

According to the GB/T16843-2005 standard of Chemical Safety Technical Specification, Content and Professional order, the former version of SDS is revised.

Department: Quality Department of Honghao Chemical Co., Ltd.

Revision: JAN,2025

Update Date: JAN,2025

Other instruction: The above information is based on the test results, it's for reference only. Its content may be changed by the application environment and other production conditions, the company does not guarantee the results of its use.
